

The Following is an overview of changes that were made to the original proposal as a result of feedback received. These changes were submitted to the DEC for approval on March 9, 2013.

The changes basically move Division boundaries to provide a better balance of Club numbers within all Divisions, particularly Divisions J and K:

Prior to the DEC Meeting:

1. **One Area of 4 Clubs** (M 35) was to be moved from the Southern end of Division M and placed in Division L (L44), thereby adjusting the boundary between these Divisions. **This maintained the original number of Areas in Division M.**
2. One Area of 4 Clubs was to be moved from the Southern end of Division L (L44) and placed in Division K (K55), thereby adjusting the boundary between these Divisions. This created a new Area in Division K.
3. 2 Clubs have were to be moved from the Northern end of Division I and placed in Division J, thereby adjusting the boundary between these Divisions. This moved the boundary between Divisions I and J to San Marcos.
4. One Club (River Talkers) has been moved from Division H and placed in Division F due to the relocation of this Club to geographically align with Division F (F 23).

At the DEC Meeting, further suggestions were presented about the Clubs within (and being moved from) Division M. In addition, some revision of proposed Clubs was suggested based on the latest Marketing update. The committee reviewed all these suggestions during the break at the DEC and submitted a revised proposal which incorporated all of these suggestions.

These final changes were approved by the DEC on March 9, 2013.

The following is a summary of the net effect of the final approved modifications. The changes from the previous version have been highlighted in the narrative.

5. **The bulk of one Area of 3 Clubs** (M 35) has been moved from the Southern end of Division M and placed in Division L (L44), thereby adjusting the boundary between these Divisions. **Division M has also been expanded to 6 Areas and new Clubs have been adjusted based on the latest Marketing information.**
6. One Area of 4 Clubs has been moved from the Southern end of Division L (L44) and placed in Division K (K55), thereby adjusting the boundary between these Divisions. This creates a new Area in Division K. **A new Club (Holy Mackerels) has been added to L44 to account for the net loss of one Club in the transfers from M and to L.** This move has also added an additional Area to Div K.
7. 2 Clubs have been moved from the Northern end of Division I and placed in Division J, thereby adjusting the boundary between these Divisions. This has moved the boundary between Divisions I and J to San Marcos and added another Area to Div J.
8. One Club (River Talkers) has been moved from Division H and placed in Division F due to the relocation of this Club to geographically align with Division F (F 23).

Realigned Clubs have been highlighted in Yellow in the spreadsheet.
