This Order also does not prohibit the use of enclosed spaces where 10 or more people may be present at different times during the day, so long as 10 or more people are not present in the space at the same time. For any gathering covered by this subsection, the County Judge and the Austin/Travis County Health Authority strongly encourage compliance with the attached Recommendations, including social distancing, providing hand sanitizer and tissues, and increasing cleaning of commonly and frequently touched services.

Austin/Travis County Health Authority Recommendations

1) **Vulnerable Populations: Limit Outings**

- Vulnerable populations include people who are:
 - 60 years old and older; or
 - People with certain health conditions such as heart disease, lung disease, diabetes, kidney disease, and weakened immune systems.
- For vulnerable populations, don't go to gatherings (of 10 people or more) unless it is essential. If you can telecommute, you should. Avoid people who are sick.

2) **Workplace and Businesses: Minimize Exposure**

- Suspend nonessential employee travel.
- Minimize the number of employees working within arm's length of one another, including minimizing or canceling large in-person meetings and conferences.
- Urge employees to stay home when they are sick and maximize flexibility in sick leave benefits.
- Permit sick employees to stay home without providing a doctor's note.
- Consider use of telecommuting options.
- Some people need to be at work to provide essential services of great benefit to the community. They can take steps in their workplace to minimize risk.

3) **Allowable Events:**

- Cancel or postpone all gatherings.
- Do not attend any events or gatherings if sick.
- For events that aren't cancelled, we recommend:
 - Having hand washing capabilities, hand sanitizers, and tissues available;
 - Frequently cleaning high-touch surface areas like countertops, doorknobs, and handrails; and
 - Finding ways to create physical space to minimize close contact as much as possible.

 - Are sick;
 - Have a fever greater than 100.4°F;
 - Have had contact with an individual diagnosed with COVID-19; or
 - Have traveled internationally to countries with travel warnings since February 1, 2020.
- If an employee that meets any of the above criteria reports to work, the employer should bar the employee from entering the workplace. An employee that has come in contact with persons exhibiting symptoms associated with COVID-19 or has traveled to an area the World Health Organization or Centers for Disease Control and Prevention (CDC) considers a "Hotspot," is expected to follow the initial self-quarantine recommendations.
- Employers should require employees (either those exhibiting symptoms or all employees) undergo non-invasive temperature readings prior to entering a critical infrastructure facility. Employees refusing to submit to a temperature reading and

those with a temperature greater than 100.4° F should be turned away and barred entry into the critical infrastructure facility.

- Supervisors at critical infrastructure facilities should be authorized to direct employees to return home if the employee is exhibiting symptoms and presenting a threat of infecting other employees at the critical infrastructure facility. Human Resources departments at critical infrastructure facilities are encouraged to create alternate work plans to help employees remain productive while keeping the workforce safe and healthy.

5) Government Buildings Providing Essential Services

- All nonessential employees should use telecommuting options.
- Minimize the number of employees working within arm's length of one another.
- Provide hand washing capabilities, hand sanitizers, and tissues.
- Frequently clean high-touch surface areas like countertops, doorknobs, and handrails.

6) Schools: Safety First

- Do not have your child attend school if sick.
- If you have a child with chronic health conditions, consult the child's doctor about school attendance.
- Frequent re-education of students and staff regarding personal hygiene measures (handwashing, etc.) and ensuring that appropriate signs are posted.
- Schools should equip all classrooms with hand sanitizers and tissues.
- Recommend rescheduling or cancelling medium to large events that are not essential, even if the events would otherwise comply with the Order.
- Explore remote teaching and online options to continue learning.
- Schools should develop a plan for citywide school closures and families should prepare.

7) Grocery Stores and Pharmacies

- Increase the use and capability of drive-thru, curbside, or delivery services.
- Limit or restrict the number of customers permitted in a store at one time.
- Minimize the number of employees working within arm's length of one another.
- Provide hand washing capabilities, hand sanitizers, and tissues.
- Frequently clean high-touch surface areas like countertops, doorknobs, and handrails.

SECTION 8: That the Travis County Sheriff's Office, the Travis County Fire Marshal's Office, and other peace officers, are hereby authorized to enforce this order. A violation of this order is a misdemeanor punishable by a fine not to exceed \$1,000 or confinement in jail for a term not to exceed 180 days.

SECTION 9: The Austin Public Health Department and the Travis County Clerk will post this Order on its website. In addition, the owner, manager, or operator of any facility that is likely to be impacted by this Order is strongly encouraged to post a copy of this Order onsite and to provide a copy to any member of the public asking for a copy. If any subsection, sentence, clause, phrase, or word of this Order or any application of it to any person, structure, gathering, or circumstance is held to be invalid or unconstitutional by a decision of a court of competent jurisdiction, then such decision will not affect the validity
